

About Our Skin Treatment Services

Soprano Ice Laser Hair Removal

Laser hair removal is the most successful long term solution to unwanted body hair. We offer treatments for men and women with both light and darker skin with minimal discomfort and no downtime.

One of our highly trained laser Aestheticians will assess your skin and problem hair before devising you a personal treatment plan to allow us to establish the correct laser treatment for your skin.

Laser hair removal is available for the following areas:

- Face
- Underarms
- Bikini Line
- Abdomen
- Legs
- Arms
- Back
- Shoulders

Skin Peels

A skin peel is a professional treatment that can lead to visibly improved skin appearance.

Medik8 offers an easy system that helps you choose which peel is most suitable for you according to your skin concerns and your lifestyle!

Medik8 Peel systems targets : Dull complexion| Uneven skin tone| Skin ageing| Pigmentation marks| Blemishes

Skin Tightening

The Soprano Ice Near Infrared skin tightening laser is a new and effective treatment for improving skin laxity without surgery or downtime. The procedure uses a safe and infrared light to heat the water content in the tissue deep below the skins surface causing collagen fibres to contract and tighten to smooth out fine lines and sagging skin. The heat also stimulates fibroblasts which repair cells in your skin to produce new collagen, creating long term results.

Diamond Microdermabrasion

Diamond Microdermabrasion is a safe and gentle procedure that uses manual exfoliation to remove the outer layer of skin.

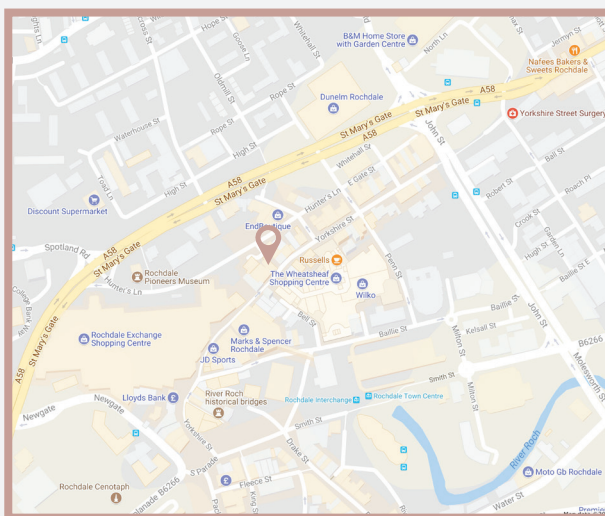

This process works in a series to produce the best results, with little or no downtime.

Skinrolla (Skin Needling)

Skin needling is a non invasive skin rejuvenation procedure that enhances the skins ability to regenerate and repair itself naturally and safely, with minimal recovery time.

Benefits of Medical Skin Needling

Creates collagen deposition for upto 12 months, even after a single treatment. Short healing time, topical anaesthetics can be used for painless treatment. Treatment courses can be repeated without limit. No skin damage as the epidermis is left intact. No sensitivity to uv light. No risk of permanent skin discoloration.

Saria Tahir is our highly experienced Aesthetics Nurse with 18 years in the industry. She is an Independent Nurse Prescriber and has a background in medical class 1V lasers. She has since been working in the injectable side of cosmetic aesthetics. Saria is fully qualified in being able to assess your skin health needs and can prescribe the ideal treatment.

Wrinkle Reducing Injections	From £199
Dermal Fillers	From £299
Vampire Facelift	From £299
Hyperhidrosis	From £449
Deep Peels	From £375
Profilo Tissue Bio Remodelling	Course Of 2 £699
Cheek Augmentation	£750

Profilo

Is a new skin tightening treatment, a natural looking non-surgical facelift in just 2 treatments. Makes the skin glow and makes fine lines disappear.

Wrinkle Relaxing Injections

Used to improve and relax the frown lines in the upper part of the face.

Dermal Fillers

Are an injectable treatment designed to reduce the signs of aging by filling out skin wrinkles and creases. Results are immediate and can last up to 6 months.

Deep Peels

Our deep peels use an ingredient never used before in peels - it's the ultimate antioxidant to fight oxidant damage and it is the perfect answer to anti-aging in 1 treatment.

Hyperhidrosis

Botox is used to treat excessive sweating in the armpits. One 15 minute treatment can last up to 9 months.
