

Soprano Ice Laser Hair Removal

Laser hair removal is the most successful long term solution to unwanted body hair. We offer treatments for men and women with both light and darker skin with minimal discomfort and no downtime.

One of our highly trained laser Aestheticians will assess your skin and problem hair before devising you a personal treatment plan to allow us to establish the correct laser treatment for your skin.

Laser hair removal is available for the following areas:

- Face
- Abdomen
- Back
- Underarms
- Legs
- Shoulders
- Bikini Line
- Arms

Diamond Microdermabrasion

Diamond Microdermabrasion is a safe and gentle procedure that uses manual exfoliation to remove the outer layer of skin.

This process works in a series to produce the best results, with little or no downtime.

Mesopeels

Mesopeels Purify and oxygenate the skin, leaving it moisturised and free of impurities.

- Close open pores, improve the texture of the skin and increase thickness of the epidermis.
- Address the effects of skin aging, softening wrinkles and adding turgidity
- Unify skin tone, add luminosity and smooth cutaneous imperfections.
- Lighten and attenuate pigmented lesions, providing a de-pigmenting effect.
- Reduce the manifestations of acne and improve the appearance of scars.

Skin prep kit from £180 (required 2 weeks prior to peeling). Course of 6 peels usually required.

Ultrasound Cavitation & Radio-frequency Fat Reduction

Ultrasound Liposuction is a revolutionary, non invasive Fat reduction treatment. Unlike well-known procedures such as surgical liposuction or tummy tuck, Ultrasound Liposuction is a non-invasive treatment for fat emulsification and cellulite reduction. Your body can now be contoured with no anaesthesia, no scarring, and no down-time. The treatment has immediate results & additional fat reduction continues during the weeks following the treatment procedures.

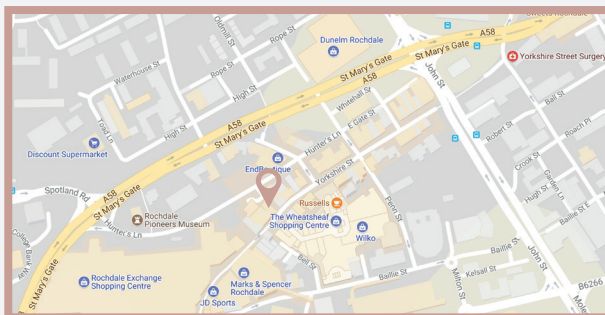

Price starts from £60 per session
6-10 sessions required

Skinrolla (Skin Needling)

Skin needling is a non invasive skin rejuvenation procedure that enhances the skins ability to regenerate and repair itself naturally and safely, with minimal recovery time.

Benefits of Medical Skin Needling

Creates collagen deposition for up to 12 months, even after a single treatment. Short healing time, topical anaesthetics can be used for painless treatment. Treatment courses can be repeated without limit. No skin damage as the epidermis is left intact. No sensitivity to uv light. No risk of permanent skin discolouration.
